

# Amazon Web Services Free Tier

---

Amazon Web Services (AWS) has three different types of free offers available depending on the product that you choose to use; free tier, 12 months free, and trials. The details of each free offer can be found here: <https://aws.amazon.com/free/free-tier/>.

All the activities in the Big Data Unit will use “free tier” services. However, it is still possible to [incur charges](#) while using the free tier service. Therefore, before you sign up and use any AWS free tier service make sure you review all the services and resources covered under the [AWS Free Tier](#). AWS provides additional information on how to avoid free tier charges [here](#).
